

Project 2:

E-COURSE APPLICATION

Rabiatul binti Sulaiman
S62651

ABOUT THIS APP

01

For student to apply course much more easy & lecture can observe and update student result easily

02

Have sign up, login, add course, schedule course, course enrollment, exam results

03

All information connected to database (firebase)

WHICH PART NEED TO IMPROVE

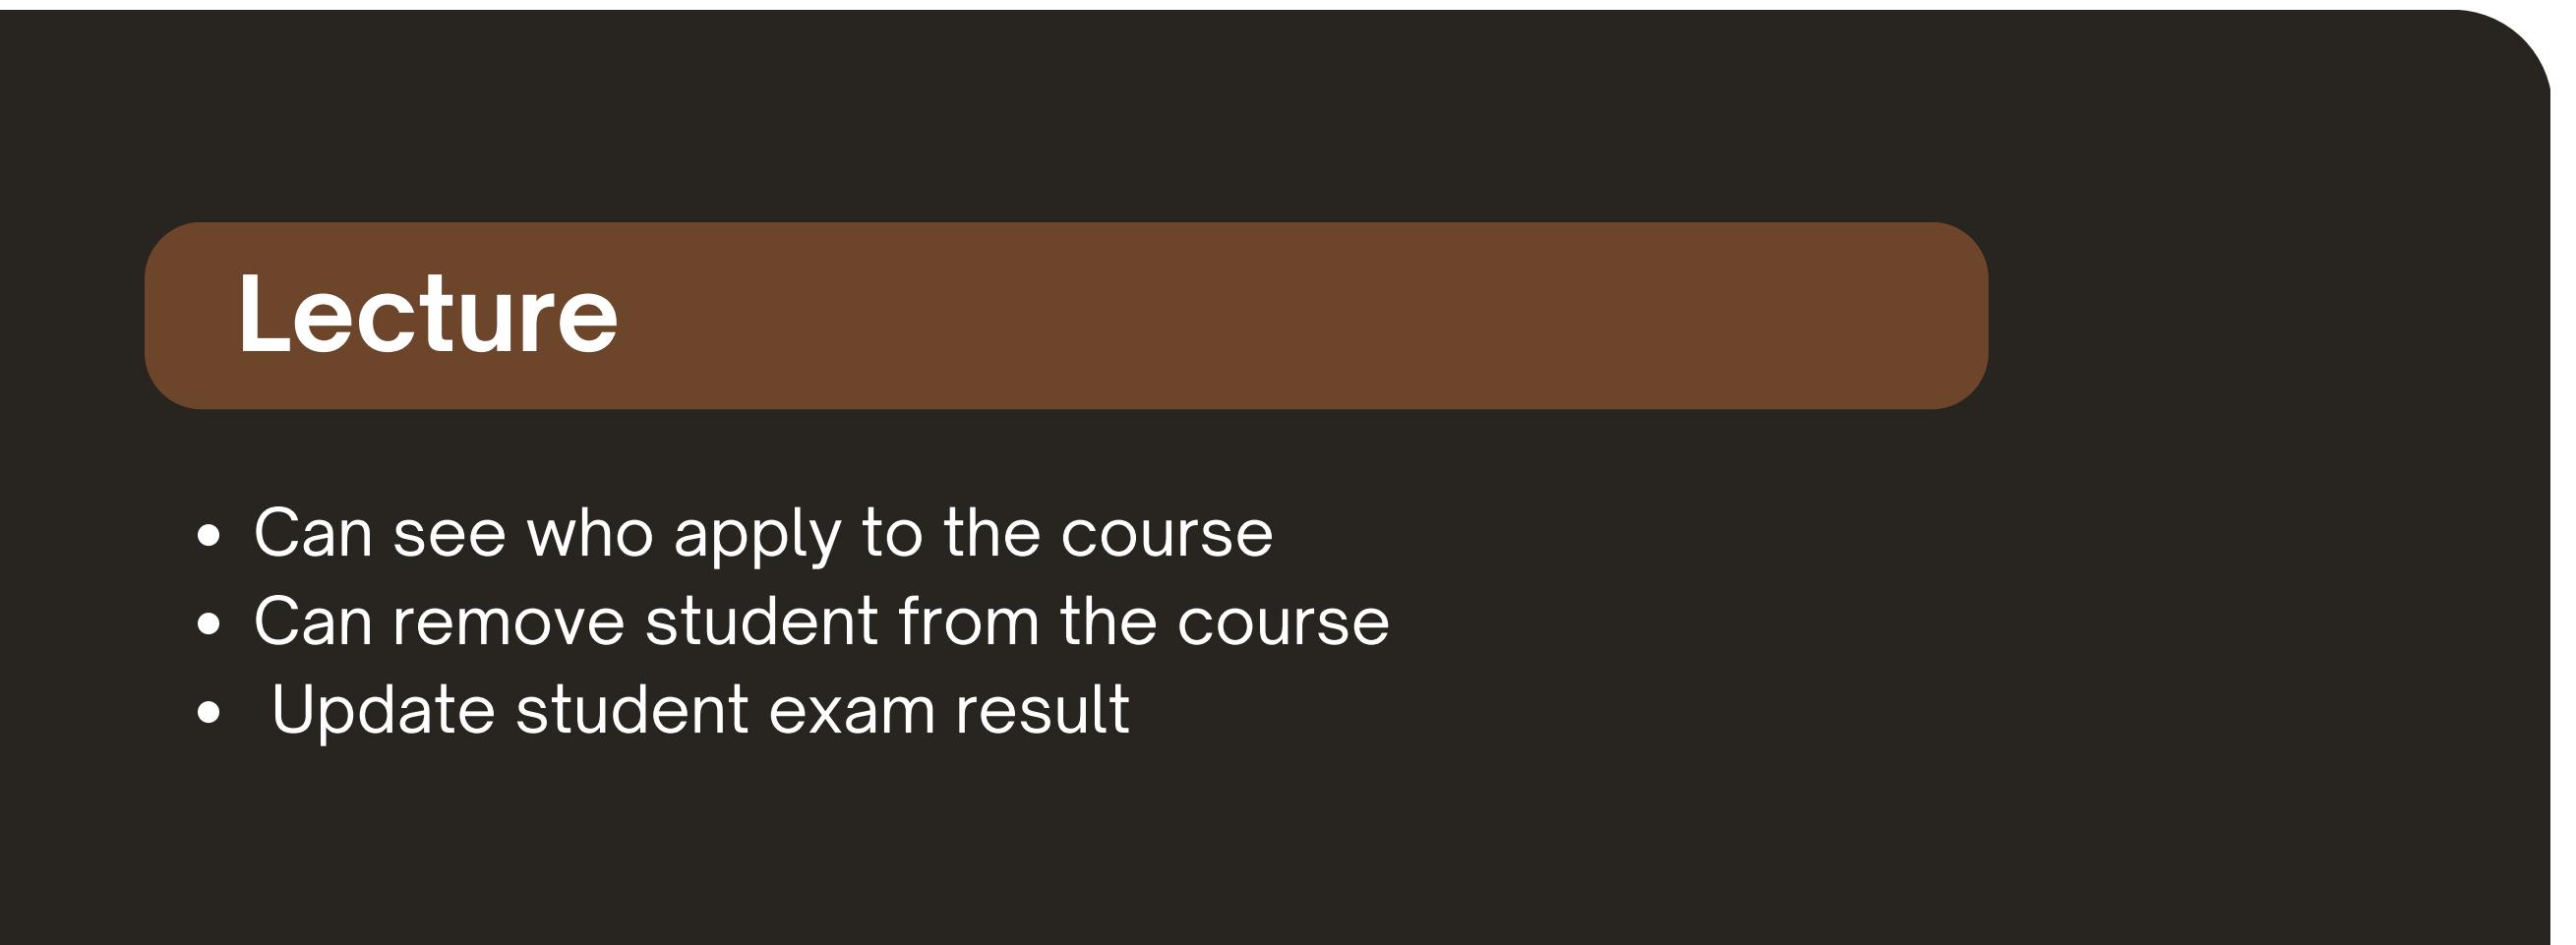

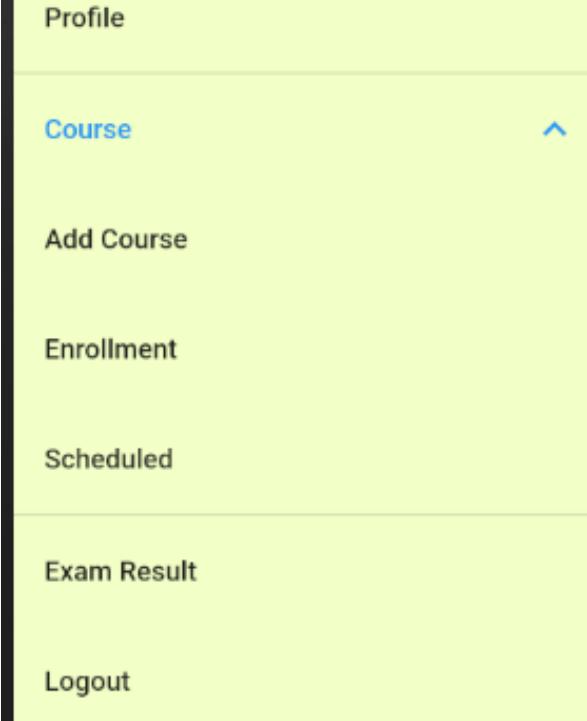

- Managing database
- Flow of the app
- Interface of the app

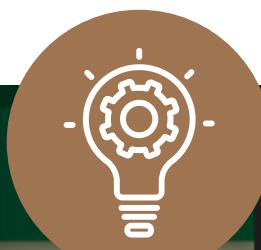

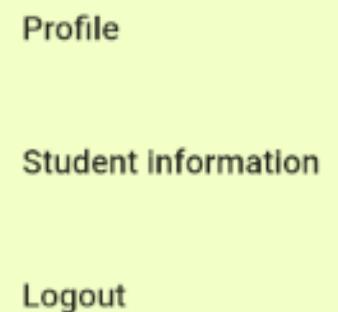

Option:

Student

- can apply course
- see enrollment
- drop the course
- check the scheduled
- check exam result

Option:

DEMO
